

ILLINOIS ROUTE 3 WATERLOO, ILLINOIS

Added Dimension, LLC was contracted by Horner & Shifrin, Inc. to perform public involvement activities, as part of the Illinois Route 3 project, in Waterloo, Illinois. This project began in January 2010, with a span of 36 months.

During this time, Added Dimension, LLC has the responsibility of participating in project meetings with Horner & Shifrin on the progress of all public engagement activities associated with the Illinois Route 3, Waterloo, Illinois project. Added Dimension, LLC is to maintain a stakeholder/community member database of all businesses, organizations and citizens attending events and meetings on this project, as well as preparing and sending letters, postcards and notices to all stakeholders. Along with public meetings and open houses, Added Dimension, LLC provides written meeting summaries that entail major issues and concerns identified during the public involvement process. A quarterly newsletter that discusses the progression of the Illinois Route 3 project including construction, project design and facts, and future public meetings, are also composed with articles written by Added Dimension, LLC.
